

730183

2 Tier Steps with Straight Top Tread (Optional)

To assemble the 2-tier step (if ordered), place the top step upside down and a stair support on top.

Ensure the stair support is flush at the back of the step and secure with 2 – 2 ½" (64mm) screws.

Repeat for the second stair support.

Flip the assembled stairs right side up and then repeat the process to attach the bottom step.

Place the assembled stairs in the desired location next to the tub.
